

City of Charlottesville

MEMO

TO: City Council
CC: Gary O'Connell, Jim Tolbert, Jeanette Janiczek
FROM: Angela Tucker
DATE: May 6, 2008
SUBJECT: Route 250 Bypass Interchange at McIntire Road Project
June 4, 2008 Work Session

Charlottesville City Council has scheduled a work session on June 4, 2008 to review key project elements on the Route 250 Bypass Interchange at McIntire Road project. In order to ensure that the meeting is as efficient and productive as possible, we want to have available the necessary information to discuss City Council's concerns in detail. We would like your review of the following items so that we may use these issues as the agenda for the meeting.

We have developed the following list of key project issues from City Council and public comments received at the recent City Council Public Hearing held on this subject on April 21, 2008:

- Interchange Size
- Project Budget
- Access for Pedestrians and Bikes
- Visual Renderings
- Historic Features

We would like your review of these issues and your comments on whether we should add or remove an item from our discussion during the work session so that we may prepare for a successful meeting. We appreciate your input and direction.
