The purpose of the meeting is to present project background information, the Draft Purpose and Need, Draft Goals and Objectives, Area Resources, and the Recommended Range of Potential Alternatives for the Route 250 Bypass Interchange at McIntire Road. Members of the Project Team will be on hand to answer your questions and listen to your input.

Interested persons are invited to express their views in writing, giving reasons for support of, or opposition to, the proposed project, the draft Purpose and Need, and on the Recommended Range of Potential Alternatives. These public comments will be considered by the City of Charlottesville and VDOT along with input from the Environmental Resource Agencies, the Project Steering Committee, and the data and analysis developed by the Project Team in reaching an informed decision on the Range of Alternatives. The Range of Alternatives will be evaluated in detail over the summer and the results of the detailed evaluation and possibly a recommendation on a preferred alternative presented at a public meeting in the fall.

The above meeting location is accessible to persons having disabilities. Any person having special needs or requiring special aid, such as an interpreter for the hearing impaired, is requested to contact the City of Charlottesville one week in advance.
